Phonic ideas for Year 1

Those children who were in school on March 17th received a pack of phonic resources to take home. The suggestions and activities in the pack support what the children have been learning in school and will help to prepare them for the Year 1 Phonics test in June.

If your child was not in school on that day then the school will endeavour to ensure that you receive a pack.

Further to what is in the pack, there are some very good resources to use online if the children login to **Espresso**.

The children's login is to be found inside their reading record that goes home every day.

For revision purposes the children could type in "**Kim's phonics**." There is a whole module of different videos and activities for the children to work through that include reading, spelling and blending activities at phase 4.

If the children type in **"Ash's phonics"** then they can access a module of videos and activities at phase 5.

Please look on Nightingales and Kingfisher Class pages for updated links to interactive phonic websites and flashcards

Fun songs to support phase 3 and phase 5 phonic sounds:
